

Typical application of a gravimetric batch blender.

- A Gravimetric Batch Blender
- B Dosiersteuerung
- C Printer
- D Host

Component D is described below.

Description

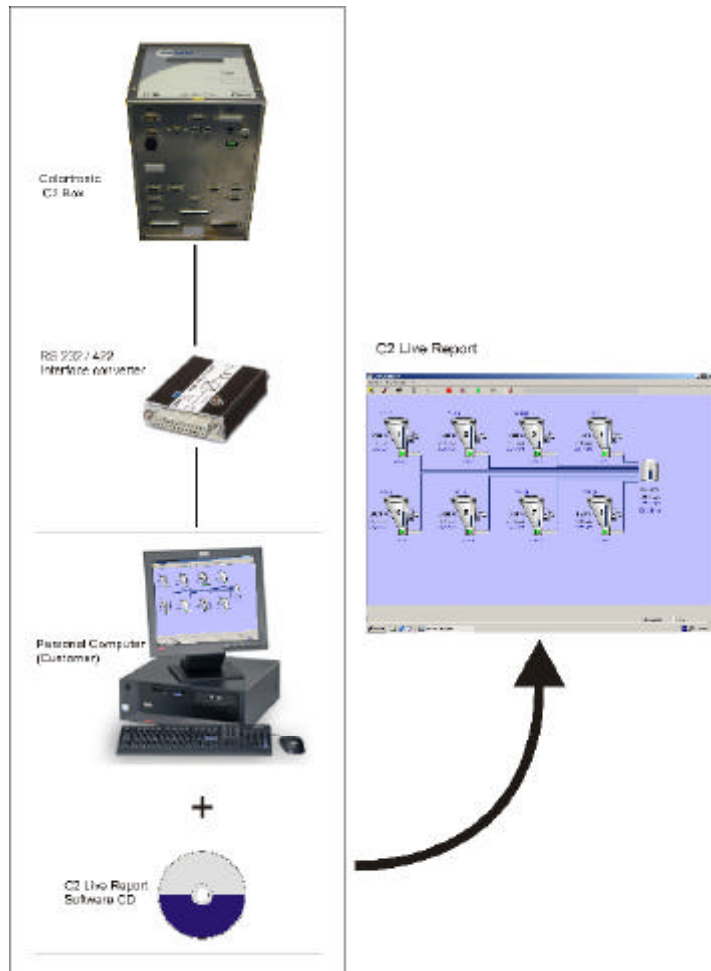

C2 Live Report is a control program that is used to monitor Gravblend systems and enables all operating data to be displayed on a standard PC.

- Centralized monitoring of Gravblend systems
- Decentralized process-data analysis by using a network

Function

C2 Live Report enables operators to view, record and archive all of the data relevant to the operating processes of a Gravblend system. The data is displayed in trend graphs or is recorded in a production report.

- Recording and archiving of all data relevant to the process
- Production reports can be created easily
- Optimum quality assurance due to continuous production data documentation

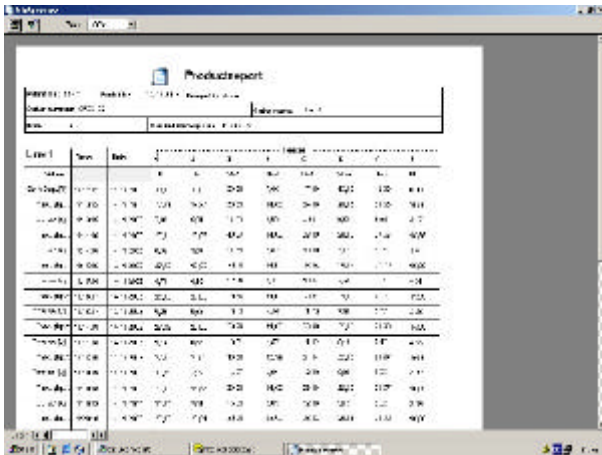

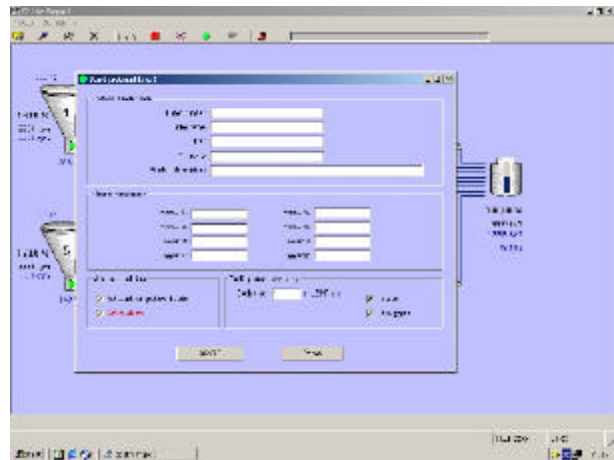

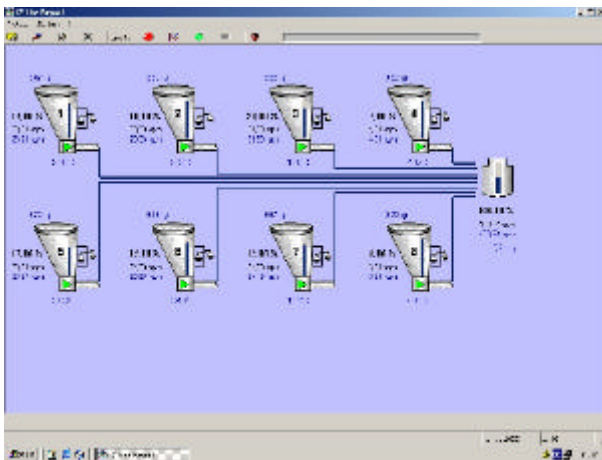

Technical Data

Basic Version

- Display of trend graphs for up to 4 production parameters
- All data is displayed in real-time
- All data can be recorded and archived
- Long-term monitoring
- The system can be monitored remotely via a PC network
- Protocols are filed in Access database
- Available operating languages:
 - German
 - English
 - Dutch
 - Turkish

System Requirements

- Colortronic C2-Touch dosing control
- IBM compatible PC
- Operating system: Windows XP or Windows 2000
- Pentium III processor, 1 Ghz min.
- Min. 256 MB RAM
- 6 GB available hard disc space memory
- RS232 COM interface
- Colour monitor with a min. of 1024 x 768 true colour display
- If the system is used for long-term monitoring, the PC system must only be used for C2 Live Report
